Your Guide to Cremation Planning

As cremation continues to grow in popularity, so does the desire to add meaning by including a gathering or memorial service...either preceding or following the cremation. We are here to help guide you through the selections you will be making that will help you and your family say goodbye in the way that is right for you.

This easy-to-use guide is designed to walk you through a simple 5-step process, beginning with selecting a cremation service plan.

Step 1: Select a service plan based on the type of ceremony or service you prefer.

Traditional Cremation Service Plan – Viewing and customized ceremony prior to cremation. Your loved one is present in Ceremonial Casket.

Memorial Service Plan – Following cremation, a gathering/visitation of family and friends evening before the memorial service the following day.

Graveside Service Plan – Following cremation, a gathering/visitation of family and friends evening before the graveside service the following day.

Gathering of Family and Friends – Following cremation, an informal gathering of family and friends.

Cremation with No Services – Cremation without ceremony or viewing.

Step 2: Select a Cremation casket or Alternative container.

Step 3: Select an Urn.

What do you want to do with your loved one's cremated remains after cremation? Bury them in a cemetery lot, scatter them in a special place, bring them home? The answers to these questions help determine the urn that best fits your needs. If you are thinking of scattering (which is final), consider saving some cremated remains to be buried in a final resting place for future generations. Hall's can help you select the appropriate urn.

Step 4: Select an Urn Vault. These are not required but provide peace of mind.

If you plan on a ground burial for the urn, an urn vault is a lined and sealed receptacle that houses the urn and protects the urn from the weight of the earth and cemetery maintenance equipment that will pass over it. The urn vault protects the urn, and any memorabilia that you place inside it. It also prevents the grave from sinking in over time.

Step 5: Keepsakes & Personalization.

As you complete your planning, you may also wish to consider keepsake urns, and personalized jewelry that provide you a lasting remembrance of your loved one.

CREMATION CASKET PRICE LIST

February 1, 2022
