

# What memoirs will you add to your family's history?

*Share your loved one's memory with your entire family and friends.*

You know how precious the memories of your loved ones are. So just imagine what kind of online book you could make using the memories and condolences of an entire family and community, collectively.

You can start by choosing a design theme that best memorializes your loved one, or, choose from the ever-evolving selection of new themes at any time.

A virtual online memorial book will instantly be ready for your family and friends to leave condolences and share memories; they may learn something they've never known before. The entire family will be sharing memories and communicating in the most loving way—regardless of distance.

Plus, the book has functional features that will benefit everyone during the service; service details, donations, flower ordering, directions and more can be found on this unique tribute.

The Book of Memories™ is not only a gesture of love, but also an invaluable resource for children becoming aware of past family members, genealogy documentation, or for just revisiting old memories.

As detailed as you like, it can all remain accessible to your family for generations; children, grandchildren, and anyone who wishes to know the family history and your loved one's place in it.

And, as we continue to grow, new and exciting features will be added to your loved one's tribute.

We make this service available to all families in our community whether we've served your family or not.

*Many themes to choose from...*

Matthews

## Matching memorial stationery.

All of the Matthews Memorial Stationery Line of Register Books, Memorial Folders, Bookmarks and Thank You cards include a matching Book of Memories as well as custom print options for families. Please speak to your funeral director to check the availability of these options.

# Your family will share memories.

We will take pride in knowing that the service we provide will live on.

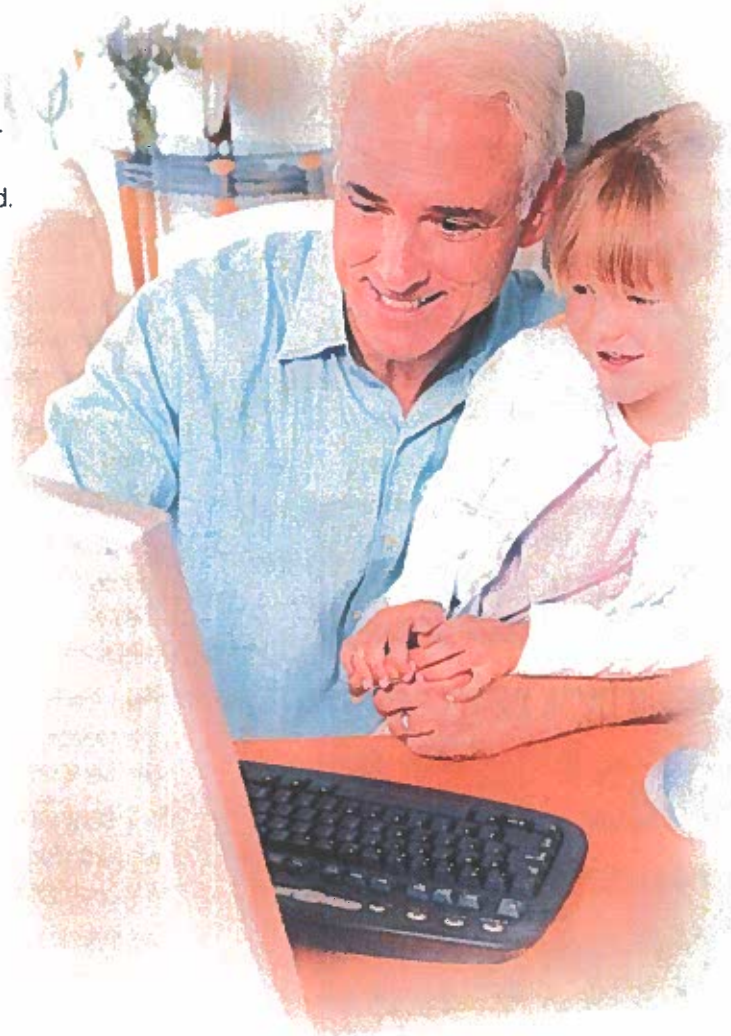

We see funeral service at a higher level.

We are proud to offer the families we serve the Book of Memories™ Online Memorial Tribute. This thoughtful and convenient service provides immediate information online for friends and family coming to the service or simply offering words of comfort and support to families at their time of need.

After the funeral, we can also provide you with the means to help preserve your loved one's memory perpetually.

- Much, much more...

Share the memories of  
a lifetime for generations.

Plus, family members and friends can light a Memorial Candle.

This virtual candle program allows families and friends to share a symbolic and loving ritual that's appreciated when viewed by other friends and family. The Memorial Candle Program is an integral part of keeping the Book of Memories™ available for future generations.

You may request a Book of Memories for a loved one. Speak to your funeral director.
